

PITTORI¹⁹³¹

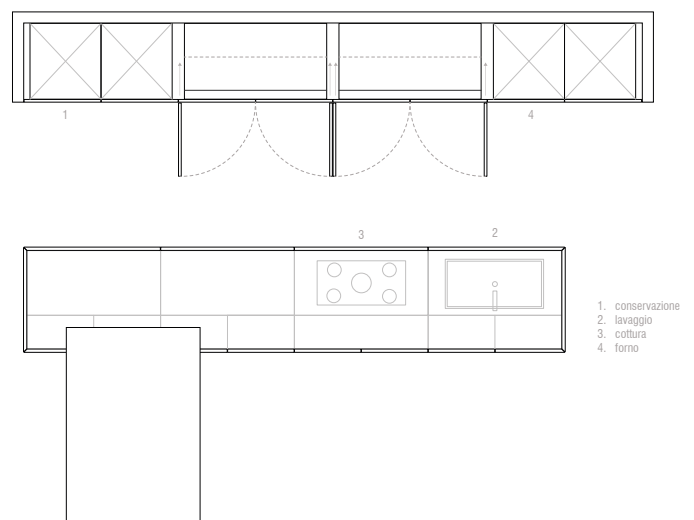

Chiarezza

Harmonious and luminous spaces

Essential and clean lines are the basis of this kitchen, which is clear and linear in its composition.

The island is the protagonist and the main functions of the kitchen, cooking and washing, are located there. The integrated Corian sink seems almost one with the worktop, the tone-on-tone horizontal groove remains almost invisible and gives continuity between the doors and the worktop

Precious finishes

The purity of the shape and the cleanliness of the image are rendered by a Corian worktop and soft touch matt lacquered doors, furthermore the solid wood snack top highlights its solidity and naturalness.

Refined details

A door with a flat diagonal groove has been selected for this kitchen to make it appear thin both visually and to the touch, thanks to the chosen soft-touch finish and rounded lines. This makes the detached countertop look even thinner and lighter.
